daniel.otaigbe@gatech.edu

Skills

Programming: C#, C++, Java, and Python (Working Proficiency for all)

Concepts: Data Structures and Algorithms, Object-Oriented Programming, Project Management

Software: Unity, iOS, Windows, Trello, Final Cut Pro, Photoshop

Education

Georgia Institute of Technology, Atlanta, GA Exp. Grad: May 2022

- Bachelors of Science in Computational Media
- GPA: 3.13

Georgia State University, Atlanta, GA August 2018 - May 2019

- Earned 31 credits towards a Bachelors of Science in Computer Science
- GPA: 4.12 – Honors

Work History

Game Development Intern at FANATICUS October 2019 - Present

- Designing dynamic racing levels and game modes for the team's VR broom flying game.
- Helping bridge the gap to Unity for team members that have strong backgrounds in programming.

IT Assistant for Georgia State's August 2018 - May 2019

College of the Arts Tech Support, Atlanta, GA.

- Ensured that all the technology (computers, audio/visual equipment, etc.) in the Georgia State College of the Arts was working as expected on in-person visits with my seniors.
- Transferred 3 years worth of ticket data from a task management software to a ticket management software.

Personal Projects

StarChild Video game, Unity

- Lead Game Designer and General Programmer
- Collaborated with 4 other people using Github as version control.
- Made for the Game Maker's Toolkit Game Jam (48 hours).
- Programmed the camera movement using C# and Unity's Component system.
- Programmed enemy aiming and shooting using C# scripting.
- Implemented all animations using Unity's animation state machine tools.

Project Chronograph Video game, Unity

- Lead Programmer
- Collaborated with 4-7 people using Github as version control.
- Programmed the player character using a finite state machine and interactive objects.
- Implemented all animations using Unity's animation state machine tools.
