Email: dotaigbe@icloud.com

Phone: 601-818-9841

Education

Georgia Institute of Technology, Atlanta, GA

May 2023

- Bachelor of Science in Computational Media
- Specialization in Game Studies and Computer Graphics
- GPA: 3.77

Work History

Associate Gameplay Programmer at Insomniac Games, Remote

Jan 2023 – Present

Custom Engine (Luna), C++

- Working on an unannounced title.
- Assisted with polishing Spider-Man 2 to completion by fixing a variety of bugs.

Gameplay Programming Intern at Insomniac Games, Burbank, CA

May 2022 – August 2022

Custom Engine (Luna), C++

- Collaborated with designers to implement reflective mirrors and lasers in code to speed up iteration.
- Coded a variety of script nodes to assist designers in various tasks.

Gameplay Engineering Intern at High Moon Studios, Carlsbad, CA

May 2021 – August 2021

Custom Engine, C++

- Coded vehicle collision interaction with explosive environment objects.
- Coded player interaction with rappel lines, allowing carried objects to be sent up.
- Fixed physics bugs with vehicles, allowing them to carry linked objects.
- Fixed player animation bugs, polishing 3rd person throw and drop animations.
-

Game Development Intern at FANATICUS, Atlanta, GA

October 2019 – May 2021

Unity, C#

- Created a game state manager for an unreleased project.
- Coded character controller with mobile swipe & zoom functionality.
- Created various visual effects via HLSL shaders for portals, water effects, etc.
- Designed dynamic racing levels for the team's VR broom flying game.
- Introduced the team to multiple Unity tools and workflows to speed up development. (Unity Remote, file structure, etc.)
